INSTRUCTIONS

- Answer **all** questions.
- Write your answer to each question in the space provided.
- You should pay attention to punctuation, spelling and handwriting.

INFORMATION

- The total mark for this paper is 50.
- The number of marks for each question or part question is shown in brackets [].
- Suggestions for how long to spend on each section are given in the booklet.

Section A: Reading

Spend 30 minutes on this section.

Read **Text A** in the insert, and then answer questions 1–5.

1 Look at the first paragraph (lines 3–9).

- (a) The writer uses powerful imagery to describe the sounds made by elephants.
Give **one** example.

..... [1]

- (b) Give **one** word that tells the reader that forest elephants are mysterious and difficult to understand.

..... [1]

- (c) Give **one** word that tells the reader that forest elephants are hard to track.

..... [1]

- (d) Look at the last sentence (lines 7–9).
Explain how the last sentence links the first paragraph to the second paragraph.

.....
..... [2]

2 Look at the second paragraph (lines 10–15).

- (a) Why does the writer use direct speech instead of indirect speech?

..... [1]

- (b) How does the writer build up detail in the last sentence (lines 13–15) through the use of punctuation? Give **one** way.

..... [1]

3 Look at the third paragraph (lines 16–19).
Why does the writer use a conjunction in the last sentence?

..... [1]

4 Look at the fourth paragraph (lines 20–24).

- (a) Explain how the sentence beginning *Such insights* connects the fourth paragraph to the third paragraph.

.....
 [2]

- (b) How does the writer connect two equally important pieces of information in the sentence?

..... [1]

- (c) Give **one** phrase that tells the reader that it is not yet certain that the new research methods will be successful.

..... [1]

5 Look at the fifth and sixth paragraphs (lines 25–33).
 Explain how the writer uses the word *songs* in different ways.

.....
 [2]

Read **Text B** in the insert, and then answer questions 6–10.

6 Look at the first paragraph (lines 3–6).
 Explain the difference in structure between the first and second sentences.

Text A

How eavesdropping on elephants is keeping them safe

A low rumble reverberates from a rainforest clearing. Occasionally, piercing roars and haunting wails emanate from among the trees. These are the calls of forest elephants that inhabit this tropical landscape. Hidden by the dense vegetation, they are the smaller and more enigmatic cousins of savannah elephants. They are more commonly heard than seen, but their diminishing populations are endangered by high levels of poaching. Now, the calls these elusive elephants use to communicate with each other through the thick forests could provide researchers with new tools they need to protect the animals.

5

‘Our goal is to better understand and protect forest elephants, a keystone species roaming the second largest tropical rainforest on earth,’ says Peter Wrege, a biologist who is part of a team attempting to decipher the elephants’ calls. ‘We are using technology to improve their chance of survival and, in doing so, to conserve the biodiversity of their forests.’ The aim: to find the location of the elephants – and the poachers who seek to kill them – so the animals can be kept safe.

10

15

Wrege and his colleagues have collected around 900 000 hours of recordings from central African forests, which include thousands of hours of elephant vocalisations. They have found, for example, that low frequency rumbles keep groups in contact with each other, while long, overlapping rumbles serve as greetings.

Such insights provide not only clues about elephant communication, but also an early warning to rangers that something might be amiss if the sensors pick up on elephant alarm calls or noises made by poachers, such as gunshots and human speech. It remains to be seen, Wrege says, ‘whether technology can make it possible to do this at a truly meaningful landscape scale – tens of thousands of square kilometers where standard methods just won’t work.’

20

But the researchers are off to a strong start. Their largest current project includes a grid of 50 sensors monitoring 1 243 sq km of forest, recording the equivalent of two million songs and calls from the forests every 3–4 months. With the help of a form of artificial intelligence (AI) known as deep learning, analysing this huge volume of recordings, and picking out the 15 000 or so elephant calls, can be done in about 22 days. Wrege and his colleagues are also now testing prototypes for real-time detection.

25

30

‘AI just makes us so much more efficient in all of these things,’ says Lucas Joppa, a chief environmental officer. ‘No human would be able to sit there and listen to two million songs in a language they don’t understand.’

Text B**How does an elephant's trunk work?**

The elephant's trunk must be one of the most amazing things in the entire animal kingdom. Created from a fusion of the animal's top lip and its nose, the elephant's trunk is a multi-functional tool integral to these distinguished mammals' survival, and it is used in almost every aspect of their lives.

5

Incredible engineering

The trunk is composed of 140 kg of flesh, fat, nerves, connective tissue, and over 40 000 muscles grouped around the nasal passages. These taper down to two fingers in the case of African elephants and one finger for Asian elephants.

10

What does the elephant use its trunk for?

In human terms, the elephant's trunk is most like the tongue.

Just like the human tongue, the elephant is able to taste the air thanks to millions of receptor cells in their upper nasal cavity. They can smell just as well as any hunting dog and are able to detect water from 19 km away.

15

Once found, the elephant can draw up to 8 litres of water into their nasal passages at a time. This is then sprayed into the mouth. Water and mud is sprayed over the elephant's body to cool it down on a hot day and discourage external parasites like ticks¹.

If a river crossing is in order, the trunk comes to the rescue once again. Held high above the surface of the water, the trunk is used like a snorkel so the elephant can breathe even when its entire body is submerged.

20

Finger food

Food time is a breeze when you have two highly tactile fingers to pick leaves from the highest branches, snap off twigs or pull up grass, and self-defence is no problem either with a long muscular club at your disposal. An elephant's trunk can lift hundreds of kilograms with ease.

Mark Scheme

Section A: Reading

Question	Answer	Marks
1(a)	Award 1 mark for one of the following: • low rumble • piercing roars • haunting wails	1
1(b)	Award 1 mark for: • enigmatic	1
1(c)	Award 1 mark for: • elusive	1
1(d)	Award 2 marks for: • It connects the description of the elephants' calls to the research into the calls. Award 1 mark for a reference to the elephants' calls and 1 mark for a reference to the research.	2

Question	Answer	Marks
2(a)	Award 1 mark for one of the following: • to introduce an expert opinion • to offer/give a personal viewpoint	1
2(b)	Award 1 mark for one of the following: • (the use of) a colon • (the use of) a dash / dashes	1

Question	Answer	Marks
3	Award 1 mark for one of the following: • to show a contrast (between two pieces of information) • to add information / give additional information	1

Question	Answer	Marks
4(a)	Award 2 marks for: It refers back to findings/discoveries by researchers and links them to what can be learned from this / the implications. Award 1 mark for a reference to findings/discoveries and 1 mark for a reference to what can be learned / the implications.	2
4(b)	Award 1 mark for: by using <i>not only ... but also</i>.	1
4(c)	Award 1 mark for: (it) remains to be seen	1

Question	Answer	Marks
5	Award 1 mark for each of the following up to a maximum of 2 marks: - The writer uses songs (in the fifth paragraph) to mean the noises that animals make. - The writer is also referring to listening to music (in the sixth paragraph). Accept elephant language and human songs.	2

Question	Answer	Marks
6	Award 1 mark for each of the following up to a maximum of 2 marks: - The first sentence is a simple sentence. - The second sentence is a compound-complex sentence.	2

Question	Answer	Marks
7	Award 1 mark for: an idiom	1

Question	Answer	Marks
8	Award 1 mark for: They can pick things up off the ground.	1

Question	Answer	Marks
9	Award 1 mark for each of the following up to a maximum of 2 marks: • It seems easy to understand because the sentences are short/straightforward (simple). • The writer makes comparisons between the anatomy of an elephant and human anatomy, which allow the reader to identify with the elephant. • The writer expresses opinions. • The writer uses rhetorical questions. • The writer uses hyperbole, ('amazing'). • The writer uses idioms. Award 1 mark for a reference to short/straightforward sentences. Award 1 mark for a comparison between elephants and humans. Award 1 mark for expressing opinions. Award 1 mark for rhetorical questions. Award 1 mark for hyperbole. Award 1 mark for idioms. Accept any response that conveys these ideas.	2

How does an elephant use its trunk...	Notes											
when drinking?	to smell/taste the air / detect water; to draw up water; to spray water in their mouths											
when eating?	to pick leaves / snap twigs / pull up grass; to reach food high in the trees											
when looking after itself?	to spray water and mud over their bodies / to cool down / to discourage parasites; to defend themselves / use as a club											
at other times?	as a snorkel to breathe through / to breathe when under water: to lift heavy weights; to feel with ('tactile fingers')											
10(b)	Example answer: When they drink, elephants use their trunks to find water, draw it up and spray it in their mouths. Their trunk helps elephants to reach high branches and snap off leaves and twigs to eat. They also use their trunks to defend themselves, lift heavy objects, and feel with. Award 2 marks for 4–6 points. Award 1 mark for 1–3 points.	2										

Section B: Writing**Notes to markers**

- Use the marking grids on the following pages.
- Marking should always begin from the lowest mark in each column and work upward.
- A 'best fit' judgement should be made in judging first in which box to place the response and then, within that box, which mark is appropriate.
- The lower mark within a box should be given if some the criteria have been met but not all.
- Note on extent:
Award **0 marks** where the performance fails to meet the lowest criteria.
Award **0 marks** for 20 words or fewer.
Award a maximum of **7 marks** for responses of between 21 and 60 words.
You need not count the words unless you think there will be fewer than 60. In normal-sized handwriting 60 words will be approximately 8 lines.

Content is wholly suitable for the intended audience. Text is written from a clear and well-presented viewpoint. i.e., contains detail that sustains interest with writer's style / personal response which emphasises particular points. Uses relevant features consistently for a chosen purpose to clarify meaning. Some combinations of structural, linguistic and literary features to create a specific effect.		The response is presented clearly and is well-organised using a good range of organisational features accurately. Ideas are developed with chronological or logical links throughout the text from an effective introduction to a successful conclusion. Paragraphs are used successfully to structure the content. There is effective cohesion within and between paragraphs. A good range of sentence openings and connectives are used appropriately to support content.	Grammatical structures are almost always accurate throughout the text. For example: - a wide range of sentence types are used accurately and effectively to support the text type. - detail and shades meaning conveyed through the grammatical structure of sentences, e.g., controlling the order of clauses in complex sentences. - Consistent use of formal and/or informal register according to context, purpose and audience. Punctuation is accurate and used to enhance meaning, for example: - commas, ellipses, colons, semi-colons, dashes and hyphens are used accurately to clarify and enhance meaning - conventions of layout are always applied effectively and consistently e.g., bullet points.

Content is suitable for the intended audience. Viewpoints are well-presented and consistent throughout. Uses relevant features consistently for a chosen purpose to clarify meaning. May begin to add structural and literary features in parts of the text.	The response is relevant using a vocabulary accurately for the purpose / text type. Uses language precisely to clarify and extend meaning.	The response is presented clearly and is well-organised using a range of organisational features accurately. Ideas are developed with chronological or logical links throughout the text though there may be some inconsistencies. Paragraphs are used to help structure the text where the main idea is usually supported by following sentences. A range of sentence openings and connectives are used appropriately to support content.	Grammatical structures are mostly accurate throughout the text, e.g., - a range of sentence types are used to support the text type. - Some detail and shades of meaning through the grammatical structure of sentences, e.g., controlling the order of clauses in complex sentences. - Formal and/or informal register is generally used appropriately according to context, purpose and audience. A range of punctuation e.g., - commas, ellipses, colons, semi-colons, dashes and hyphens are used mostly accurately to clarify meaning. - Conventions of layout are applied consistently e.g., bullet points.	Spelling is usually correct throughout. There may occasionally be phonetically plausible attempts at complex words. Correct spelling of most, not all, polysyllabic words, e.g., accommodation, appear, information, probably, separate, business, essentially, wondering/wandering.

Content is mostly relevant using some literary techniques appropriate to the text type. Main features of the text type, if appropriate, are evident. Viewpoints are generally clear and help engage the reader's interest for the most part.	Creates and controls meaning through precise use of a range and variety of language. Creates effects by using a range of linguistic and literary techniques.	The response is generally well-organised and attempts the use of some organisational features. Some attempt to sequence relevant ideas logically. Paragraphs / sections are evident, though not always consistently or appropriately. Related points are grouped together or linked by time sequencers. Movement between paragraphs or sections, may be disjointed with a limited range of sentence openings and connectives.	Grammatical structures are generally accurate throughout the text, e.g., • Use of some range of sentence types to support the text type. • Some complex sentences attempted to create effect. • Formal and/or informal register is attempted if relevant e.g., depending on target audience Some range of punctuation: • e.g., commas, semi-colons, dashes and hyphens) is used accurately to clarify meaning. • There may be evidence of comma splicing. Note: if punctuation is totally lacking and other descriptors met then give the lower mark here.	Spelling of common and some less-common words, including polysyllabic and compound words, is generally accurate, e.g. friend, another, around, because, anything, something. Spelling of plurals and some past and present words is generally accurate, e.g., boxes, clothes, told, stopped, wanted.

Some material included that is relevant to the task. The writer's attitude to the subject inconsistently conveyed, with some attempt to engage the reader. Some elements of the text type can be seen; <i>a maximum of 1 mark can be awarded if not the correct genre.</i>	Language is simple, relevant and suitable for the text type. Language and meaning of words/phrases is mainly clear, with some errors.	Some attempt to organise the overall text. Some basic sequencing of ideas in relation to the stimulus. Paragraphs / sections are evident with related points grouped together or linked by time sequence. Movement between paragraphs or sections, is disjointed with a very limited range of sentence openings and connectives.	Basic grammatical structures are generally correct, e.g., • subject and verb generally agree • past and present tense verbs are generally consistent. • simple and some compound sentences • some complex sentences may be attempted to expand detail but not always successfully. • Formal and/or informal register may be attempted but not consistently according to context, purpose and audience. Punctuation: • Demarcation of straightforward sentences is usually correct. • Commas are used in lists and occasionally to mark clauses. <i>Note: learners should gain marks for good English with punctuation errors rather than lose marks for essentially good English.</i>	Spelling of high frequency words is generally correct, e.g., their/there, when, were, what, some, etc.

Text for Section A, an extract from *The Bone Sparrow* by Zana Fraillon

Subhi is a nine-year-old boy who has lived almost all his life in a camp for refugees.

Sometimes, at night, the dirt outside turns into a beautiful ocean. As red as the sun and as deep as the sky.

I lie on my bed, and listen to the waves lapping at the tent. Queeny says I'm stupid, saying that kind of stuff. But it's true. She just doesn't see it, is all. 5

Maá sees, though. She can hear the ocean outside, too. 'You hear it, *né?*' I whisper, in the dark.

In the morning, the ground still wet and foamy from where the waves have washed up, I sit and trace the hundreds of animals that have swum all the way up to the tent, their faces pushing against the flaps, trying to get a look at us inside on our beds. Queeny says they aren't real beds, but just old army cots and even older army blankets. Queeny says that a real bed is made with springs and cushions and feathers, and that real blankets don't itch. 10

This morning I found a shell washed up right along with those animals. I breathed in its smell. All hot and salty fish, like the very bottom of the ocean. And even though Queeny doesn't believe, and grunted about when was I ever going to grow up and could I please quit bothering her all the time, she still gave me her last bit of paper and said I could borrow her pen so I could write the words in black at the top of the page. *The Night Sea with Creatures*. I drew a picture as best I could with no colours and paper that curled from the damp. Using her pen and paper only cost me my soap, and I'll steal that back from her later anyway. Sisters shouldn't charge their own brothers for paper. 15 20

I snug up with Maá, careful not to wake her because today is one of her tired days.

When I whisper that it's just about breakfast time and does she want to come eat, I see her eyes open a bit and the smile start on her lips. 'Just little longer, *né?*' she says, in her English that never sounds right. 'I not hungry much, Subhi, love.'

Maá's never hungry much. The last time she ate a full meal and didn't just peck at her food was when I was only nineteen fence diamonds high. I remember because that was on Queeny's birthday and Maá always measures us on our birthdays. By now I am at least twenty-one or twenty-two, or maybe even twenty-two and a half high. I haven't been measured in a while. 25

Maá's never hungry much, but I'm always hungry. Eli, he reckons I must be going through a growth spurt. Eli lives in Family Tent Four with some other families because his family isn't here. It doesn't matter that Eli's older than me by more than Queeny is; he's my best friend and we tell each other everything there ever is to tell. Eli says we're more than best friends. We're brothers. 30

I pull out my shell and show it to Eli. Eli, he's the only one I show all my treasures to.

'Ba sent me another,' I say. 35

Eli looks at me with one eyebrow raised. I don't think he's at all sure that it is my ba sending me these treasures while everyone else sleeps. But if anyone could work out how to whisper up the Night Sea to send a message to the kid he's never met, it would be my ba.

'Your dad needs to work on his messages, because so far not one of us can make out a word of what he's trying to say,' Eli says. 40

I give Eli my shell and he smiles, turning it over and over in his hands. 'Nice one.' Then he sits down in the dirt and pushes it up to his ear.

'Are you listening to the sound of the sea?' I ask.

'I'm listening to the stories of the sea. Do you want me to tell you what I hear?'

And now there are at least ten other kids, all gathered round, listening to Eli tell.

45

'A long way back, when the world was nothing but sea, there lived a whale. The biggest, hugest whale in the ocean. The whale was as old as the universe and as big as this whole country. Every night, the whale would rise to the surface and sing his song to the moon. One night...'

And all of us sit, Eli's story wriggling its way so deep into our brains that it can't ever fall out.

Later, I let Queeny have a listen to my shell. 'What am I listening to?' she says. 'The only thing I can hear is air swishing about.'

50

'That's the sound of the sea,' I tell her.

She just looks back at me. 'Pft. The sea sounds nothing like that.'

Section B: Writing**Notes to markers**

- Use the marking grids on the following pages.
- Marking should always begin from the lowest mark in each column and work upward.
- A 'best fit' judgement should be made in judging first in which box to place the response and then, within that box, which mark is appropriate.
- The lower mark within a box should be given if some the criteria have been met but not all.
- Note on extent:
Award **0 marks** where the performance fails to meet the lowest criteria.
Award **0 marks** for 20 words or fewer.
Award a maximum of **7 marks** for responses of between 21 and 60 words.
You need not count the words unless you think there will be fewer than 60. In normal-sized handwriting 60 words will be approximately 8 lines.

Content is entirely relevant. Features of the relevant genre, if appropriate, are used confidently and consistently throughout. Narrative viewpoint is well-established with a consistent style that engages the reader's interest throughout. Characters are developed and well-portrayed with the use of a distinctive voice. Some combinations of structural, linguistic and literary features to create a specific effect.		The overall text is well-organised and uses a good range of organisational features to build up the narrative. Events are logically sequenced throughout the text from an effective opening to a satisfying conclusion. Clear, well-organised paragraphs are used successfully to structure the narrative and control the pace of the story. A good range of carefully chosen sentence openings and connectives are used to clarify or emphasise narrative detail.	Grammatical structures are almost always accurate throughout the text. For example: - a wide range of sentences used accurately, with some evidence of them being manipulated effectively for narrative effect - detail and shades of meaning conveyed through the grammatical structure of sentences e.g., controlling the order of clauses in complex sentences. - Formal and/or informal register is used appropriately and consistently if relevant e.g., depending on the target audience. Punctuation is accurate and used to enhance meaning, for example: - commas, ellipses, colons, semi-colons, dashes and hyphens.

Content is suitable for the intended audience. Features of the relevant genre, if appropriate, are clearly established. Narrative viewpoint is clear with an individual style and generally engages the reader's interest throughout. Some characters are developed and well-portrayed with the use of a distinctive voice. May begin to add structural and literary features in parts of the text.	The response is relevant using vocabulary, accurately, for the purpose / genre. Uses language precisely to clarify and extend meaning. Some combinations of structural, linguistic and literary features to create a specific effect.	The text is well-organised and uses a range of organisational features to build up the narrative. Events are logically sequenced though there may be some inconsistencies Clear, well-organised paragraphs are used appropriately to structure the narrative and help the pace of the story. A range of sentence openings and connectives are used appropriately to clarify or emphasise narrative detail.	Grammatical structures are generally accurate throughout the text. For example: - a range of sentence types are used to support the text type. - Some detail and shades of meaning through the grammatical structure of sentences, e.g., controlling the order of clauses in complex sentences. - Formal and/or informal register is generally used appropriately if relevant i.e. depending on the target audience. Punctuation is mostly accurate and sometimes used to enhance meaning. For example: - commas, ellipses, colons, semi-colons, dashes and hyphens.	Spelling is generally correct throughout. There may occasionally be phonetically plausible attempts at complex words. Correct spelling of nearly all polysyllabic words, e.g., appear, information, probably, separate wondering/wandering, business, essentially, accommodation

Creation of texts (Wc)	Vocabulary and language (Wv)	Structure of texts (Ws)	Grammar and punctuation (Wg)	Word structure (Ww) (spelling)
Content is mostly relevant using some literary techniques appropriate to the genre. Main features of the genre, if appropriate, are evident. Narrative viewpoint is generally clear and helps engage the reader's interest for the most part. Characters are generally well-described. Content may have some different voices within the text.	Creates and controls meaning through precise use of a range and variety of language. Creates effects by using a range of linguistic and literary techniques.	The text is generally well-organised and uses some organisational features to build up the narrative. Some attempt to sequence relevant ideas logically in relation to the stimulus. Paragraphs are used to structure the narrative though not always consistently or appropriately. Movement between paragraphs may be disjointed with a limited range of sentence openings and connectives.	Grammatical structures are generally accurate throughout the text. For example, there are: • some range of sentence types for narrative effect. • some complex sentences attempted to create detail and convey shades of meaning. • Formal and/or informal register is attempted if relevant e.g., depending on target audience Punctuation is generally accurate and may sometimes be used for effect. e.g., • commas, semi-colons, dashes and hyphens • There may be evidence of comma splicing. Note: if punctuation is totally lacking and other descriptors met then give the lower mark here.	Spelling of common and some less-common words, including polysyllabic and compound words, is correct, e.g., accurate, present, evidence, making, possible, search

Creation of texts (Wc)	Vocabulary and language (Wv)	Structure of texts (Ws)	Grammar and punctuation (Wg)	Word structure (Ww) (spelling)
General features of the genre, if appropriate, may be present. Narrative viewpoint is not always consistent. Some attempt is made to engage the reader. Characters are described in basic detail. <i>A maximum of 1 mark can be awarded if not the correct genre.</i>	Language is simple, relevant and suitable for the text type. Language and meaning of words/phrases is mainly clear, with some errors.	The text is quite well organised and uses some organisational features appropriately. Paragraphs / sections are evident with related points grouped together or linked by time sequence. Movement between paragraphs or sections, may be disjointed with a very limited range of sentence openings and connectives.	Basic grammatical structures are generally correct, e.g., - subject and verb generally agree - past and present tense verbs are generally consistent. - a mix of simple and some compound sentences used accurately for narrative effect - some complex sentences may be attempted to expand detail but not always successfully. - formal and/or informal register may be attempted if relevant e.g., depending on target audience but not consistently. Punctuation: - Demarcation of straightforward sentences is usually correct. - Commas are used in lists and occasionally to mark clauses. <i>Note: learners should gain marks for good English with punctuation errors rather than lose marks for essentially good English.</i>	Spelling of common words is generally correct, e.g., their/there, friend, another, around, because, anything, something.
